WORK EXPERIENCE

IT Support Intern | Postal Corporation of Kenya, Kakamega | May – July 2024

- Diagnosed and resolved complex network connectivity and hardware faults, significantly reducing staff downtime and improving operational efficiency.
- Assisted in the maintenance and monitoring of corporate server infrastructure and network integrity under supervision.
- Provided technical support to senior engineers during system upgrade procedures and infrastructure enhancements.

IT & Systems Technician | Private Cyber Cafe Enterprise (Part-time)| 2023 - 2026

- Demonstrated advanced proficiency in computer systems management, including hardware troubleshooting, software installation, and network configuration in a high-demand customer service environment.
- Managed and maintained a fleet of workstations, ensuring optimal system performance, printer connectivity, and secure browsing environments.
- Provided rapid technical support to clients, resolving critical operating system and application errors under time-sensitive conditions.

Project Assistant | JKUAT | Sept - Dec 2022

- Optimized SQL queries for a university departmental database project, resulting in measurable improvements in data retrieval speed and reporting efficiency.
- Participated in system vulnerability assessments and contributed to comprehensive technical documentation to guide future system upgrades and maintenance.

PERSONAL INTERESTS

- Reading and Continuous Learning
- Environmental Conservation Initiatives
- Exploring Emerging Technologies
